Your online guide to the sensational world of Sega and Sonic The Comic. Hosted by Megadroid.

Welcome Screen

Hey, Boomers!
Let's start with a big thank you to the super cool folk at **Kellogg's Frosties** for giving STC readers the chance to win **Sega Multi-Megas** in this issue's grrrreat competition! Turn to the right-hand page following the **News Zone** for details on how to enter.

Remember last issue when **Pirate STC** seized a part of your favourite video-game comic? Well, this seriously weird new strip is *still* in control and I've had to designate the back pages of **STC** as an official danger zone. Enter at your peril!

Talking of danger zones, coming exclusively to **STC** is **Mutant League** - the roughest, toughest, sports story ever told! The action starts in **STC 31**, Boomers are advised to order protective armour!

Meanwhile, on sale now are two accessories to **STC** that no self-respecting Boomer should be without. Locate and buy the **Sonic Summer Special** and **Sonic The Poster Mag No. 5** at your local newsagent today. Both magazines will help fill the gap between **STC** issues. Now that's what I call good thinking!

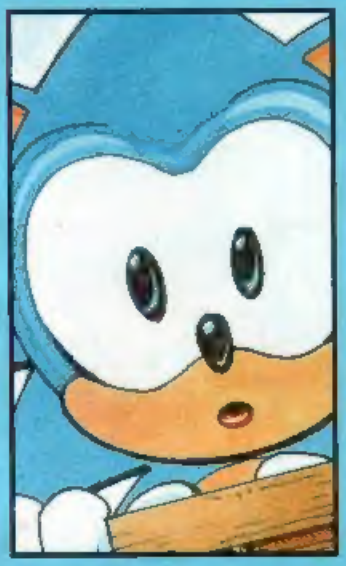
A special prize is also awarded to the fastest competitor of the day so brush up on those reflexes and hop on a Sega bus this summer. Oh, and while you're at it, don't forget to mention that STC sent you. Watch out for more tour dates in the next Control Zone.



Please make sure that you check the following venues in advance in the event of last minute changes and look in the local press for additional dates. The Sega buses are also scheduled to visit selected Haven and Pontins holiday camps during the summer months.

OVERALL 85%

Streets of Rage 3 has been a long time coming and with its hefty 24 meg you soon get to see just why this monster game is so big (and expensive!). It's packed with detailed colourful graphics and 36 tracks from Yuzo Koshiro(!) not to mention a digitised voice and FX samples.

The story sounds a little too familiar with you being told that a new syndicate is in town. You can team up with Dr Zan, Adam's brother Skate, Blaze or just go for it yourself as Axel. You have to discover why bombs are going off all over the place and there is a rumour that robots are replacing high ranking officials.

The gameplay has you in a forced scroll where you have to beat a set number of baddies before moving on. The action is heavy and the bosses at the end of each stage are very tough. The play-feel and moves are really good and the variety of characters and hidden touches will astound you! There are plenty of options with a choice of up to five lives, listening to music, voices or sound effects, three levels of difficulty and playing with a three or six button pad.

Overall, **Streets of Rage 3** is a solid follow up to *Streets of Rage 2* with brilliant presentation and satisfying gameplay. If you want a hot fighter, hit the streets now and go get it! - VL

SHINING FORCE 2

game type: STRATEGY
1-2 PLAYERS

MD

Shining Force 2 follows on from the success of *Shining Force 1* released last year. It is a cross between an adventure game and a strategy game. The menus pop up very quickly and the text messages and menus switch round in the blink of an eye.

An introductory sequence explains at the beginning that the king is feeling sick due to a force escaping from the tower.

As controller, you get to move around huge lands in a three quarter view/top down perspective. You can talk and interact with almost everyone you meet and collect hidden items for use in the course of your quest.

Shining Force 2 has very similar interfaces to

Shining Force 1. However, the characters and play style have been extended to offer more challenge and depth. It also has a battery back-up so you can save your position for future games.

Overall, **Shining Force 2** is a great game with months of challenge awaiting you. There are plenty of twists to throw you and some great battle sequences featuring gorgeous, animated monsters to hack and slash.

Even if you hate adventure games **Shining Force 2** is so simple to play and get into that you will soon find yourself having to go just that little bit further. V.

England, Scotland, Wales and Northern Ireland's failure to qualify for this years World Cup has done nothing to ebb the flow of soccer games pouring on to the market. While devotees of such games as FIFA Rules and Kick Off are not likely to be casting around for yet another soccer sim, **Marko's Magic Football** is instead, a soccer platform game!

The premise will be familiar to all platformers. Evil mastermind and owner of the local toy factory, Colonel Brown, has emptied the heap of a crazed scientist to turn all life form to green sludge. In this messy fashion, the Colonel intends to achieve world domination - or at least, supremacy over North Sterlington. Our only hope to stem this tide of destruction is Marko (the obligatory cute wonder boy) and his football, made magic by accidental immersion in the sludge.

This is about the strength of the alternative logic upon which the bizarre creation of a football platform romp is based. It is certainly a novel way, I'd say groundbreaking, of dressing up a tired format. The question is, how successful is it?

Well, Marko makes the usual quest through the many environments of North Sterlington - sewer, suburban, industrial, forest, circus and so on. Marko's success in traversing a landscape infested with mutant sludge monsters depends on his ability to wield the magic ball. Here lies both the challenge and the problem.

On the one hand, you have a whole new dimension in weaponry. Using the football (which fortunately perpetually returns to feet) requires preparation, skill and a healthy dose of luck. The downside is that it takes a good few hundred seconds for Marko to release a ball and, say, pull off the Cantona style overhead kick that comes off one in every three attempts. Meanwhile, the enemies continue to attack (usually from off-screen), clearly under the mistaken impression that you are a character with a rapid action weapon. You do occasionally get the use of a machine-gun but as it is under a time limit it is of minimal help.

I am tempted to describe **Marko's Magic Football** as a fairly standard platform game with some above average features - a physics engine, puzzle elements and the demands of careful ball control. However, it has a basic flaw that is a direct result of mixing elements. The preparation needed to fire a ball, instead of a weapon, slows the game down drastically and a platform game without pace requires greater compensation than is to be found here. After all, I only encountered the first boss after was more than half way through the 13 levels.

All in all, the idea is a credible one and hats should go off to Domark for trying to boost the format, but at the end of the day it's not as good or different as it should be. NP

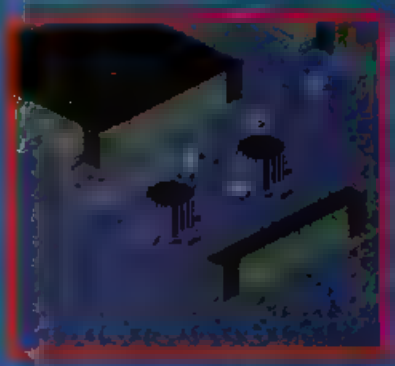
STRIKE ACTION ACROSS AMERICA!

U.S. GOVERNMENT THREATENED BY TERRORIST CAMPAIGN

Following [illegible] it's [illegible] shaping up to be the definitive sequel to a sequel.

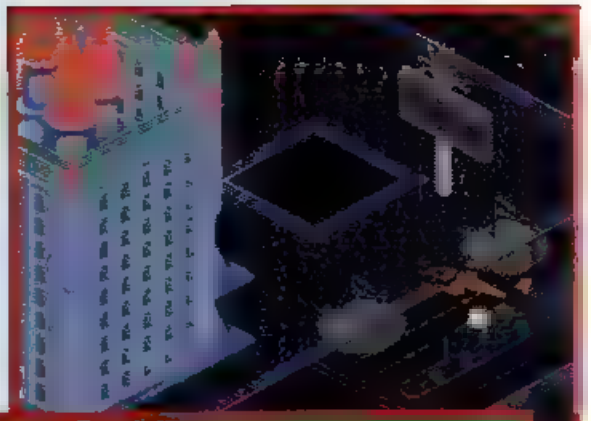


The story behind **Urban Strike** is as follows: terrorists are gaining control of America's streets and are close to overthrowing the government. Cue the Strike force to enter the fray and clear up the mess.

In **Urban Strike** the player controls a full-blown team comprising a fu[illegible] ha[illegible] plenty of foot soldiers [illegible]

Th[illegible] Washington. In addition to hitting between soaring skyscrapers and unleashing firepower far superior to anything seen in the first two Strike releases, you also get to follow the terrorists on foot inside the buildings (with a close-up view to ensure that none of the action is missed) and dis[illegible] cover and disarm time bombs.

Urban Strike is released in Nov[illegible] ember and, by the sound of it, we won't be disappointed.



Urban Strike could it really be the biggest and best yet?

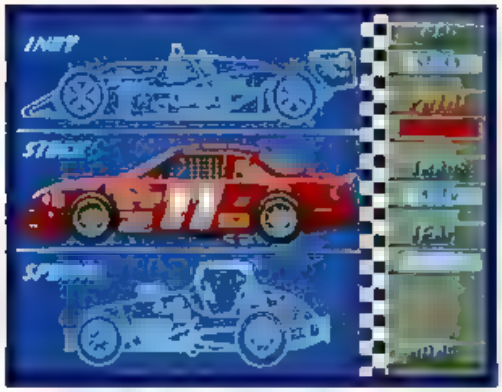
SUPER MARIO (ANDRETTI) GETS IN GEAR

MOTOR RACING LEGEND MAKES HIS MARK ON THE MEGA DRIVE

Former Formula One World Champion Mario Andretti now races alongside Nigel Mansell in the US Indy Car Championships, and thanks to Electronic Arts you can join him on your Mega Drive with **Mario Andretti Racing.**



Mario Andretti Racing - a potential Indy Racing beater

Not only do you get to take part in the Indy Car competition you can also take sprint cars for a spin on slippery mud tracks and race high-speed stock cars around punishing oval circuits. The 15 different tracks featured in **Mario Andretti Racing** include cinder and tarmac ovals and street circuits, all modelled on their real-life counterparts, and each one demanding its own distinctive driving style.

The many different options include a training mode (where Mr Andretti himself talks you around a course), a choice of four displays, and four modes of play including simultaneous two-player action using a split screen.

Mario Andretti Racing is released this month and certainly sounds as though it will provide strong competition for Sega's Virtua Racing - especially at the price of £44.99.

MASTER SYSTEM GOES DAFFY!

NEW TITLES QUEUE FOR AUTUMN RELEASE

Things have been quiet recently on the Master System, but now here's news of some hot new titles due for September that have brilliant graphics and great gameplay. First up is **Daffy Duck in Hollywood** where you have to recover valuable statues for Yosemite Sam in a very tough 8 bit platform romp.

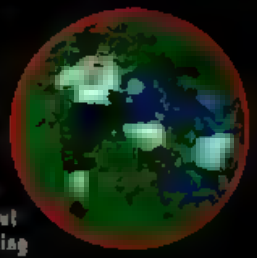
Ultimate Soccer is for all you footy fans, and is a full blown sports game with a two player option and plenty of action to tackle.

Asterix and the Great Rescue is another fine platform game. It comes from Core and has great graphics and some tough gameplay to keep you hooked.

SHORT BURSTS

TOP SOCCER NOW ON CD

Electronic Arts' **FIFA International Soccer** is coming to the Mega-CD later this year. The impressive football simulation will be the same but EA are promising "plenty of bells and whistles" to accompany the action. It will also carry a price tag five pounds sterling cheaper than the original Mega Drive version - and why not? Compact Discs aren't as expensive as cartridges to manufacture. Publishers of Mega-CD software take note ...



BETTER LATE THAN NEVER

Two delayed releases that may be of interest ... the long-awaited Mega-CD conversion of last year's arcade beat-'em-up hit **Mortal Kombat** will, at last, be released in June, while the American football simulation **NFL Quarterback Club** for the Mega Drive (originally slated for release last year) won't be seen until - heavens - this November.

A MONSTER IN THE MAKING

Watching huge, modified trucks speed around demanding dirt tracks is a popular pastime for Americans, but why watch when you can participate? Well, you can in October when Acclaim release **Monster Trucks** for the Mega Drive. Acclaim reckon this racing simulation will capture all the "high-octane buzz" of the real thing. Let's hope so - it will certainly make a change from driving another Formula One car around the same old circuits!

WRESTLING IN THE RAW

Also set for release through Acclaim in October is yet another World Wrestling Federation title ... **WWF Raw** for the Mega Drive and Game Gear. **WWF Raw** is based on the Royal Rumble event, "but with loads more bolted on," say Acclaim. That's all they would reveal when we spoke to them, but we do know that the Mega Drive cartridge will weigh in at a hefty 24 Megabits.

THE CAT'S BACK!

Despite Accolade's enthusiasm for their Bubsy The Bobcat character, his run 'n' jump antics simply weren't strong enough to depose Sonic from his throne. Undaunted, Accolade are now building what they reckon to be a bigger and better sequel for release this Autumn. In **Bubsy 2** the action is still platform-based (and the bobcat still speaks), but now there's less emphasis on running and jumping and more effort is required to find and use objects to complete the quest. Accolade have also enhanced the two-player mode and introduced new bonus stages - one of which involves catapulting frogs to hit targets.

With the World Cup under way, STC decided to get in on the action (see issue 28). Unfortunately, Sonners, the originally scheduled non-Sonic team are not match fit (apart from Tails), as they all got injured in training and are currently feeling as sick as parrots. However, waiting on the touch-line were mere super-fit Sonic s just waiting to burst into action.

JUNGLE BOOK

Tips

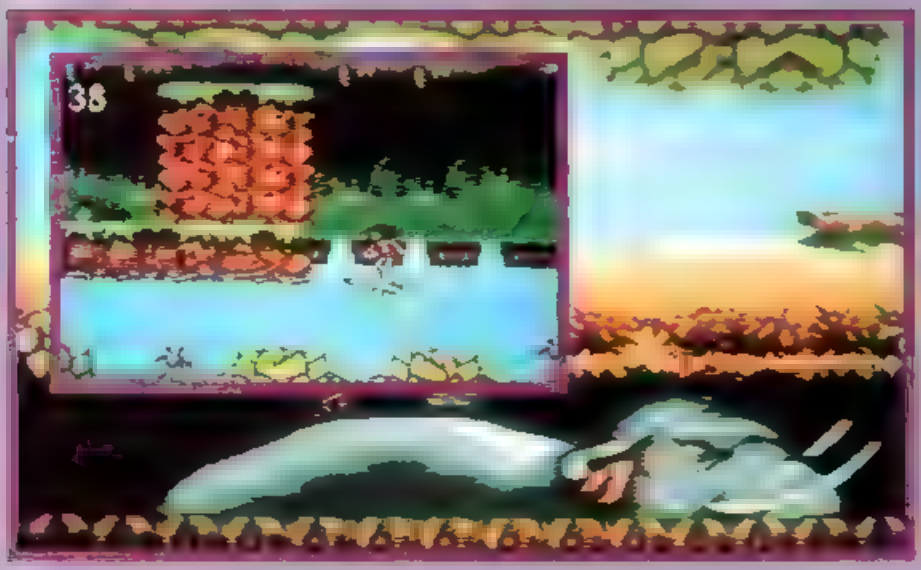
Last issue's Q Zone featured the mega-fast cut on to the **Jungle Book** game. No doubt most of you managed to get through it without the need for further help. However, in case there are still some baffled boomers out there, here's a level select for both the Master System and Game Gear versions of **Jungle Book**:-

MS

Switch the game on and wait for the sparkly Walt Disney logo to appear. Once it disappears and the screen is black, press Up, Down, Up, Down, Left, Right on the joypad. You should hear a little ditty to indicate that the cheat has been activated. Press Start on the menu screen and the level select will appear.

GG

Switch the game on and wait for the menu screen to appear. Whilst holding down 1, 2 and Start, circle the pad in a clockwise direction with your finger. You should hear a little noise to indicate the cheat has been activated. Press Start again to bring the cheat on.



FIFA SOCCER

Oh, if only all sports games were made this way. **FIFA Soccer** was released last December, and the game proved so popular that EA sold all 500,000 copies faster than you can say *Sonic 3*. It's now back, deservedly, at the top of the charts, and so for those of you who would like some help, take a look at the following passwords:-

TOURNAMENT PASSWORDS:
Quarters - Argentina Vs Canada: F74YBB79PT
Semis - Argentina Vs Austria F74YBB58ID4
Final - Argentina Vs England F74YBB65P1P8
LEAGUE

PASSWORDS:
To win 13 out 13 with the best team, EA Allstars, type in: QP5CW4J1PY1MR
To enter the Play-Offs final with EA Allstars, type in: X8XZW4TR1PH

LOTUS 2

When it comes to playing video games, it's clear that Boomers have a soft spot for driving fast cars and **Lotus 2** is no exception. Initially launched for the Amiga, EA realised that the folk qualified to test it were discerning Sega users! So what's new? Well, did you know there is a very slick and rather enjoyable secret little shoot-em-up called POD? No? You do now!
Once the game begins, go to the section where you would normally enter your name and type in POD PLEASE. Now, press Start and you'll be treated to that hidden game.

SONIC CD

Tips

Our blue spiky hero entered a new phase when he appeared on the beloved CD system. Not only did he feature in a small cartoon, but you were also treated to a wonderful, mega-new Sonic adventure. Here are two great cheats for you.-

Start by going to Time Attack and playing every level. After this, at the options screen you will see something called D.A. Gardens. Go to this, and you'll see Sonic's World! You can now rotate and enlarge it, whilst Tails, accompanied by a few birds, fly past. You also get to choose any music from the game.

On the title screen, press Up, Down, Down, Left, Right and B using the joypad. The cheat is quite tricky to activate, so try doing it slowly and gently.

SHINOBI 2

Tips

This fancy platform action game finally made it onto Sega's very own hand held system. Shinobi 2 is a game that many of you have, so here's a super cheat for you -
To access all of the characters, go to the password screen and enter - F5958
When you start the game, you'll have the yellow and blue crystals with all the characters.

ALADDIN

Tips

OK, we've already revealed the complete solution to this excellent Disney platformer. And yes, we know you've had the level skip cheat. Well, how about a brand new cheat that shows you a digitised picture of programmer Dave Perry, and also gives you an options screen with a whole host of cheats -

1. Wait for the title screen to appear, then press Down, A, C, A, C, A, C, A, C, B, B, B and B on the joypad. You should then be greeted with Dave Perry's face together with the words: 'Ah, David Perry, what is your wish?' The options screen will then appear.
2. How would you like to find a hidden extra life in the game? Well, in the Desert level go right and kill the first snake, then return to the start of the level and hey presto. An extra life will have appeared!

Gimme Gimme

Dear STC,

Every time Sega release a new video game system, I repeatedly ask my Dad to buy me one. Although I already have a Mega Drive, I desperately want a Mega CD, Master System and a Game Gear, plus any future consoles. My Dad did promise to buy me these, so if he's joking I'll batter him!

Jasdeep Singh Dhillom, Handsworth, Birmingham. MD owner.
Sonic Water Fun Game Winner.

Well Jasdeep, I think the next thing on your list should be a course on how not to be greedy.

No Man's Land

Dear STC,

It occurs to me that if Doctor Robotnik plans to rule the world by killing everyone with satellite death rays etc., there won't be anyone left to rule over!

Katie Munns, Romsey, Hants. MD owner.
Sonic Water Fun Game Winner.

Sounds like a sensible observation, Katie! If only Robotnik-types of the home world adopted this outlook.

On The Buses

Dear STC,

I would like to inform other STC readers that the last time I visited the Sega Bus I won a cap, stickers and posters. If the bus is in your area this year I strongly advise you to check it out - pronto!

Lee Chapman, Leicester. MD owner.
Sonic Water Fun Game Winner.

Ever thought of working in PR when you're older, Lee (or becoming a footballer?). See this issue's ***Control Zone*** *for the Sega Buses tour dates; forthcoming dates will be listed in future issues of STC.*

Off Yer Ed

Dear STC,

It was an outrage! What am I talking about? You saw him first in STC 4, and after that you hoped you'd never see him again. But no, Ed Hillyer returned, determined to ruin a Sonic strip once and for all. He draws like a four year old - even I could have done better. Surely you could have replaced 'you know who' with Ferran Rodriguez or Woodrow Phoenix? Richard Elson is a genius, which is probably why you use him so much. Otherwise STC is a brilliant comic.

Sarah Rose, Worsley, Manchester. MD owner.
Sonic Water Fun Game Winner.

You must know some incredibly capable toddlers, Sarah (Ferran/Woodrow (Richard?).
